

Beautiful hand upholstered 32mm fabric screens.
Available in eight fabrics, two stitch styles and
two thread colours as standard.

Blade screens provide an aesthetic alternative to systems screens. If you don't need to link screens together or hang anything from them, blades could be just the thing for you. Blades are perfect for touchdown areas or hot-desking where functionality of the screen is less important. They are fantastic for creating something unique and personal to an individual or corporate brand.

Available as standard in the following colours from the Camira Blazer range:

- Glenalmond with Black Stitch
- Silcoates with Black Stitch
- Banbridge with Black Stitch
- Handcross with Black Stitch
- Napier with Black Stitch
- Silverdale with White Stitch
- St Andrews with White Stitch
- Plymouth with White Stitch

Specification

- 32mm profile.
- 50mm radius to all four corners.
- Standard sizes are 400 high by 780, 980, 1180, 1380, 1580 or 1780 wide.
