Float Accessories

The modern workplace is changing along with the way we work. The workstation itself is used in different ways by different people all with one thing in common - the need for flexible, organised space. Float accessories can free your desk, personalise your desk and help others identify you if you are hot-desking or visiting.

The float family is made from 1.5mm mild steel and comes in white, silver or black powder coated finishes and easily fits onto screen management rail profiles.

Available in white, black and silver

Cert No. GB09/77672
